Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

PART 904—MILK IN GREATER BOSTON, MASS., MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937 (7 U. S. C., 601 et seq.) hereinafter referred to as the "act," and of the order, as amended, regulating the handling of milk in the Greater Boston, Massachusetts, marketing area, hereinafter referred to as the "order," it is hereby found and determined that:

1. Subdivisions (i) (ii), and (iii) of § 904.6 (a) (1) of the order and the entire table contained in subdivision (iv) of said section, with the exception of the words "Class I Price (dollars per cwt.)," and the figure or price "4.77," do not tend to effectuate the declared policy of the act with respect to all milk subject to the provisions of the order during the month of March 1947; and

2. It is impracticable and contrary to the public interest to comply with the specific notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Public Law 404, 79th Cong., 60 Stat. 237) in that the time intervening between the date when the conditions necessitating the foregoing finding became apparent and March 1, 1947 is insufficient to permit compliance with such specific notice, public rule making procedure, and effective date requirements, and in that any delay in the effective date of this action beyond March 1, 1947, will seriously jeopardize the orderly marketing of milk produced for the Greater Boston, Massachusetts milk marketing area.

It is therefore ordered, That subdivisions (i) (ii) and (iii) of § 904.6 (a) (1) of the order and the entire table contained in subdivision (iv) of said section, with the exception of the words "Class I Price (dollars per cwt.)," and the figure or price "4.77," be and they hereby are suspended with respect to all milk subject to the provisions of the order during the month of March 1947.

1. PART 927—MILK IN NEW YORK METROPOLITAN MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937 (7 U. S. C. 601 et seq.) hereinafter referred to as the "act," and of the order, as amended, regulating the handling of milk in the New York metropolitan milk marketing area, hereinafter referred to as the "order," it is hereby found and determined that:

1. The entire table contained in § 927.5 (a) (1) of the order, with the exception of the words "Dollars per cwt." and the figure or price "4.58," does not tend to effectuate the declared policy of the act with respect to all milk subject to the provisions of the order during the month of March 1947; and

2. It is impracticable and contrary to the public interest to comply with the specific notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 60 Stat. 237) in that the time intervening between the date when the conditions necessitating the foregoing finding became apparent and March 1, 1947 is insufficient to permit compliance with such specific notice, public rule making procedure, and effective date requirements, and in that any delay in the effective date of this action beyond March 1, 1947, will seriously jeopardize the orderly marketing of milk produced for the New York metropolitan milk marketing area.

It is therefore ordered, That the entire table contained in § 927.5 (a) (1) of the order, with the exception of the words "Dollars per cwt." and the figure or price "4.58," be and it hereby is suspended with respect to all milk subject to the provisions of the order during the month of March 1947.

2. It is impracticable and contrary to the public interest to comply with the specific notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Public Law 404, 79th Cong., 60 Stat. 237) in that the time intervening between the date when the conditions necessitating the foregoing finding became apparent and March 1, 1947 is insufficient to permit compliance with such specific notice, public rule making procedure, and effective date requirements, and in that any delay in the effective date of this action beyond March 1, 1947, will seriously jeopardize the orderly marketing of milk produced for the Fall River, Massachusetts, milk marketing area.

It is therefore ordered, That subparagraphs (1) (2), and (3) of § 947.4 (a) of the order and the entire table contained in subparagraph (4) of said section, with the exception of the words "Class I price (dollars per cwt.)," and the figure or price "5.52," be and they hereby are suspended with respect to all milk subject to the provisions of the order during the month of March 1947.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Reg., Amdt. 20-5]

PART 20—PILOT CERTIFICATES

AERONAUTICAL KNOWLEDGE

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 18th day of February 1947.

The repeal of § 43.52 (b) of Part 43 of the Civil Air Regulations has made the reference to this section contained in § 20.24 of Part 20 incorrect.

The Board finds that an amendment to § 20.24 is required to remove this inconsistency and that the notice and procedures provided for in paragraphs (a) and (b) of section of the Administrative Procedure Act are unnecessary.

Now, therefore: Effective April 1, 1947, § 20.24 of the Civil Air Regulations is amended to read as follows:

§ 20.24 Aeronautical knowledge. Applicant for a powered aircraft or glider rating shall have passed the written examination prescribed in § 43.51 (a) of this chapter within the preceding 24 calendar months. (52 Stat. 934, 1037, 49 U. S. C. 425, 551)

PART 43—GENERAL OPERATION RULES

STUDENT PILOT REQUIREMENTS FOR FIRST SOLO FLIGHT

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 18th day of February 1947.

Part 43 of the Civil Air Regulations now requires that a student pilot pass a written examination on pertinent provisions of Part 43 and those provisions of Part 60 of the Civil Air Regulations dealing with contact flight rules prior to engaging in solo flight outside of a local flying area designated by his instructor.

The Civil Aeronautics Board finds that requiring a student pilot to pass such an examination prior to engaging in any solo flight will increase safety in flying; that a change in the Civil Air Regulations requiring such an examination prior to first solo flight is a minor change, since its only effect is to advance the date for complying with an existing examination requirement; and that the public notice and procedures provided for in paragraphs (a) and (b) of section 4 of the Administrative Procedure Act are unnecessary.

Now, therefore: Effective April 1, 1947, Part 43 of the Civil Regulations is amended as follows:

1. By amending § 43.51 to read as follows:

§ 43.51 Requirements for first solo. A student pilot shall not operate an aircraft in solo flight until:

RULES AND REGULATIONS

(a) He has passed a written examination on pertinent provisions of Part 43 and those of Part 60 dealing with contact flight rules.

(b) He has been found competent by a flight instructor to make such flight and authority therefor has been endorsed by such instructor on the student pilot certificate, and

(c) He has been given instruction in recovery from stalls and spins, if such solo flight is made in a spinnable aircraft.

2. By repealing paragraph (b) of § 43.52 *Flight area limitations*.

(52 Stat. 984, 1007; 49 U. S. C. 425, 551)

By the Civil Aeronautics Board.

Secretary.

PART 603—FINAL DELEGATIONS OF AUTHORITY

Section 603.2 is hereby amended, effective upon publication in the FEDERAL REGISTER, by adding paragraph (m) thereto as follows:

(m) *Delegation of authority to the Special Assistant (Veterans' Emergency Housing Program) to the Director of Region II.* The Special Assistant (Veterans' Emergency Housing Program) to the Director of Region II is delegated the authority to exercise those powers, duties and responsibilities set forth in paragraph (d) (3) of this section.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 146—CERTIFICATION OF BATCHES OF PENICILLIN-CONTAINING DRUGS

PACKAGING OF PENICILLIN OINTMENT

By virtue of authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, as amended by 59 Stat. 463; 21 U. S. C., Sup. 357), the regulations for the certification of batches of penicillin-containing drugs (11 F. R. 12136) as amended, are hereby further amended by deleting the word "one" in line eight of paragraph (b) of § 146.26 *Penicillin ointment*, and substituting the word "two" therefor.

This order, which provides for a change in the packaging requirements of penicillin ointment, shall become effective upon publication in the FEDERAL REGISTER since both the public and the penicillin industry will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order and would be contrary to the public interest, and I so find, since it was drawn in collaboration with interested members of the affected industry, and since it would be against public interest to delay the marketing of penicillin ointment under the revised packaging requirements.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 13, Direction 26]

DISPOSAL OF LIQUEFIED PETROLEUM GAS TANK CARS BY WAR ASSETS ADMINISTRATION

The following direction is issued pursuant to Priorities Regulation 13:

(a) *Purpose of this direction.* A critical shortage has developed in pressure tank cars suitable for the transportation of liquefied petroleum gas. It is imperative to maintain as many cars as possible in the transportation of such gas on which the public in many areas of the country is dependent for heating and cooking. In addition, the expected production of new liquefied petroleum gas tank cars has not been reached. 423 of these cars, ICO type 105-A-300 W, owned by the Army have been or are about to be declared surplus to its needs. This direction controls the disposal of these surplus tank cars by the War Assets Administration in accordance with dispositions determined by the Office of Defense Transportation to be in the best public interest.

(b) *Disposal of certain pressure tank cars by War Assets Administration.* The War Assets Administration is hereby directed to dispose of the liquefied petroleum gas tank cars listed on Schedule A below, subject to financial arrangements satisfactory to it, only to the persons and in the quantities as designated in writing by the Office of Defense Transportation.

(c) *Expiration date.* This direction expires on March 31, 1947.

Issued this 27th day of February 1947.

NOTICES

FEDERAL POWER COMMISSION

[Docket No. G-859]

MEMPHIS NATURAL GAS CO.

NOTICE OF APPLICATION

FEBRUARY 20, 1947.

Notice is hereby given that on February 7, 1947, an application was filed with the Federal Power Commission by Memphis Natural Gas Company ("Applicant") a Delaware corporation with its principal place of business at Memphis, Tennessee, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction

and operation of certain facilities hereinafter described.

The present natural-gas pipeline system of Applicant extends from the Lisbon and Monroe fields in Louisiana across a portion of Arkansas and Mississippi to Memphis, Tennessee, and other points in western Tennessee.

The facilities which Applicant seeks authorization to construct and operate are described as follows:

Part A. A 24-inch natural-gas transmission pipeline commencing at a point in the East Texas Gas Fields and extending in a general northeasterly direction for a distance of approximately 669 miles to a point of connection with the natural-gas system of Louisville Gas and

Electric Company, southeast of Louisville, Kentucky. The proposed pipeline will cross the Mississippi River near Memphis, where a connection will be made with Applicant's present system. Other connections will be made in West Tennessee with Applicant's present system at points of crossing. A connection will also be made with the main system of Kentucky Natural Gas Corporation ("Kentucky"), an affiliate of Applicant, at a point in Hopkins County, Kentucky, near Madisonville.

Part B. (a) A 24-inch natural-gas transmission pipeline extending from the terminus of the "Part A" facilities at Louisville, in a general northeasterly direction, for a distance of approximately

290 miles, to a point near Clarington, Ohio.

(b) Three compressor stations located along the route of the proposed Part A and Part B pipe lines, at respective points in Arkansas, Mississippi, and Kentucky, having a total installed capacity of 20,000 horsepower.

Part C. (a) A 24-inch natural-gas transmission pipe line extending from the Ohio terminus of the Part B facilities in a general northeasterly direction, for a distance of approximately 57 miles to a point in Greene County, Pennsylvania, approximately 25 miles south of Pittsburgh.

(b) Additional compressor stations and facilities located along the route of the proposed Part A, Part B, and Part C pipe lines at respective points in Louisiana, Arkansas, Mississippi, Tennessee, Kentucky, and Ohio, having 30,000 horsepower of additional compressor capacity.

Applicant proposes to begin construction of the Part A facilities as soon after the issuance of the requested certificate as materials can be secured; to complete the construction of such facilities during 1949; upon completion of the Part A facilities, to commence work on the Part B and Part C facilities; and, if possible, to construct the latter facilities within one year thereafter.

The application recites that the Part A facilities are intended to deliver 100,000 Mcf. of gas per day initially; that the Part A and Part B facilities when completed will have a delivery capacity of 220,000 Mcf. of gas per day; that the Part A, Part B and Part C facilities when completed will have a delivery capacity of 295,000 Mcf. of gas per day. Applicant proposes that a portion of the gas to be delivered by such facilities shall be used to meet requirements of the present customers of Applicant and Kentucky; and that the remainder thereof shall be delivered at Louisville, to systems in the Appalachian area, and at other communities along the route of the proposed line.

The application recites that Applicant's present system is now delivering its full capacity; that such capacity is not adequate for the pressing and rapidly growing needs of the Memphis Light, Gas and Water Division; and that Applicant, even for its present system, is faced with the necessity of constructing an additional loop to its present pipelines to Monroe Field, or else building a new line directly from Memphis to the East Texas Gas Fields.

The application further recites that by a pending application before the Commission "in the matter of Memphis Natural Gas Company and Kentucky Natural Gas Corporation," Docket No. G-855, Applicant seeks authorization for the corporate and organization integration of Applicant and Kentucky, and that the application in the instant matter seeks authorization for the physical interconnection of the two systems; that the present major sources of supply to the system of Kentucky are the Panhandle Eastern Pipe Line Company system on the north thereof, and the Tennessee Gas

and Transmission Company system on the south; that the growing load on the Kentucky system makes it desirable and necessary that Kentucky have an independent and direct line to the source of supply under its own control; that the extension of the proposed line north and east from the connection with the Kentucky system is in response to demands for an additional gas supply for Louisville and for the Appalachian markets; that Louisville now receives its natural-gas requirements from Kentucky-West Virginia Gas Company and Tennessee Gas and Transmission Company; that the estimated requirements of Louisville exceed the amount it can now or may expect to receive from all present sources; that the proposed line is planned to supplement the present and proposed outside supply of gas in the States of Ohio, Pennsylvania and New York; that gas is being offered for sale and connections are proposed to be made to gas systems along the line close to the major markets in the Appalachian area; and that there are indications that the available capacity of the proposed line in such area will be fully utilized.

It is further recited in the application that agreements covering an assured supply of natural gas for the program proposed will be presented to the Commission at or before the hearing upon the application.

It appears from the application that the estimated total over-all cost of the facilities proposed to be built, including materials and supplies, is as follows: Part A, \$32,300,000; Part B, \$20,000,000; Part C, \$11,000,000.

Any interested State commission is requested to notify the Federal Power Commission whether the application shall be considered under the cooperative provisions of Rule 37 of the Commission's rules of practice and procedure and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and further to specify whether it desires a conference, the creation of a board, or a concurrent hearing as defined in said rule and the reasons for such request.

The application of Memphis is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the rules of practice and procedure (effective September 11, 1946) and shall set out clearly and concisely the facts from which the nature of the petitioner's or protestant's alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contentions of the petitioner in the proceeding, so as to advise the parties and the Commission as to the issues of fact or law to be raised or controverted, by admitting, denying, or explaining specifically and in detail, each material al-

legation of fact or law asserted with respect to the application.

FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 24th day of February A. D. 1947.

Notice is hereby given that Louisiana Power & Light Company ("Louisiana") a public utility subsidiary of Electric Power & Light Corporation ("Electric") a registered holding company subsidiary of Electric Bond and Share Company, also a registered holding company, and Electric have filed joint applications and declarations with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act") and have designated sections 6 (a) 7, 9 (a) 12 (c) and 12 (f) of the act and Rules U-42, U-43 and U-50 promulgated thereunder as applicable to the proposed transactions.

All interested persons are referred to said applications and declarations which are on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Louisiana proposes to offer to the holders of its 59,422 shares of outstanding \$6 preferred stock the right to exchange such stock share for share for a new issue of ----% cumulative preferred stock having a par value of \$100 a share, the dividend rate to be supplied by amendment. All shares of the outstanding preferred stock not so exchanged will be called at the redemption price of \$110 a share plus accrued dividends to the date of redemption. Louisiana also proposes to sell to Electric, the holder of all of Louisiana's outstanding common stock, and Electric proposes to acquire, for cash, such additional shares of common stock at its stated value of \$5 a share as may be required to provide Louisiana with funds in connection with the redemption of its outstanding preferred stock. The plan for retiring the outstanding preferred stock is to become automatically effective if 75% or more of such stock is offered for exchange, but Louisiana reserves the right to make the plan effective, with the consent of Electric, if less than 75% is offered for exchange. Louisiana proposes also to make certain amendments to its certificate of incorporation in connection with carrying out the proposed transactions.

In effectuating the plan of exchange, Louisiana proposes to select a dealer manager to manage the exchanges. Every Louisiana dealer who is a member of the National Association of Security Dealers will be invited to become a member of the dealer group to effectuate exchanges.

Louisiana applies for exemption from the competitive bidding provisions of Rule U-50, and Louisiana and Electric request that the Commission's order be entered as promptly as may be feasible.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and con-

sumers that a hearing be held with respect to said joint applications and declarations and that the said joint applications and declarations shall not be granted or become effective except pursuant to further order of the Commission:

It is ordered, That a hearing on said joint applications and declarations under the applicable provisions of the act and the rules of the Commission thereunder be held on March 10, 1947, at 10:00 a. m., e. s. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room in which such hearing is to be held.

It is further ordered, That Richard Townsend or any other officer or officers of the Commission designated by it for that purpose shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a hearing officer under the Commission's rules of practice.

The Public Utilities Division of the Commission having advised the Commission that it has made a preliminary examination of said joint applications and declarations, and that, on the basis thereof, the following matters and questions are presented for consideration by the Commission without prejudice, however, to the presentation of additional matters and questions upon further examination:

(1) Whether the preferred and common stocks to be issued are reasonably adapted to the earning power and security structure of Louisiana and are necessary or appropriate to the economical and efficient operation of the business in which Louisiana is engaged.

(2) Whether the issuance of such securities is solely for the purpose of financing the business in which Louisiana is engaged, or for the purpose of refinancing, exchanging or discharging an outstanding security of the company.

(3) Whether the terms and conditions of the issue or sale of said securities are detrimental to the public interest or the interest of investors or consumers.

(4) Whether the terms and conditions of the proposed exchange offer are fair and reasonable and appropriate in the public interest and the interest of investors and consumers.

(5) Whether the consideration, fees, commissions, or other remuneration to be paid in connection with the proposed transactions are reasonable.

(6) Whether Electric may appropriately acquire additional common stock of Louisiana in the manner proposed and whether such acquisitions would be in conformity with the applicable provisions of section 10 of the act.

(7) Whether the program proposed by Louisiana would involve in effect issuance of the new preferred stock at a substantial premium and, if so, whether such new preferred stock may appropriately be issued.

(8) Whether the accounting entries to be made in connection with the proposed transactions are adequate and in

accordance with sound accounting practices.

(9) Whether the requested exemption from the competitive bidding provisions of Rule U-50 is appropriate in the public interest and the interest of investors and consumers, and if so, whether such exemption should be granted prior to the entry of any orders with respect to the principal transactions.

(10) Whether, in the event that the applications and declarations shall be granted and permitted to become effective, it is necessary or appropriate to impose any terms or conditions to assure compliance with the standards of the act or in the public interest or for the protection of investors or consumers.

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions, and that matters pertinent to the questions in paragraph (9) be first considered at such hearing.

It is further ordered, That any person desiring to be heard in connection with this proceeding or proposing to intervene herein shall file with the Secretary of the Commission on or before March 7, 1947 his request or application therefor as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing a copy of this order by registered mail to the Louisiana Public Service Commission, Louisiana Power & Light Company and Electric Power & Light Corporation; and that notice of said hearing be given to all other persons by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935; and that further notice be given to all persons by publication of this order in the FEDERAL REGISTER.
